Turn TUNING toward "+" or "-", then release.
Automatic tuning starts and stops at the station with a sufficient signal strength.
Faire tourner le réglage TUNING vers "+" ou "-", puis le relâcher.
L'accord automatique commence puis s'arrête sur une station ayant un signal suffisamment fort.

Gire TUNING hacia "+" o "-" y después suéltelo.
La sintonización automática se iniciará y se parará en una emisora de señal suficientemente intensa.

Girate TUNING verso "+" o "-" o "..." e poi rilasciate.
La sintonizzazione automatica si attiva e si ferma in corrispondenza di una stazione con forza di segnale sufficiente.

To receive other stations
When the received station is not the one you want, turn TUNING again.

Indications in the display window

- The STEREO indication appears when an FM stereo program of sufficient signal strength is received.
- The SIGNAL meter indicates the signal strength of a station tuned in.

Reception d'autres stations
Lorsque la station accordée n'est pas celle désirée, appuyer de nouveau sur TUNING.

Temoins dans la fenêtre d'affichage

- Le témoin STEREO apparaît lorsqu'un programme stéréo avec un signal suffisamment fort est reçu.
- L'intensité du signal de la station accordée est indiquée par l'indicateur SIGNAL.

Para recibir otras emisoras
Cuando la emisora recibida no es la deseada, vuelva a girar TUNING.

Indicaciones en el visualizador

- Cuando reciba un programa de FM estereo de señal suficientemente intensa, aparecerá la indicación STEREO.
- En el indicador SIGNAL aparecerá la intensidad de señal de la emisora recibida.

Per ricevere altre stazioni
Se la stazione sintonizzata non è quella desiderata, girate di nuovo TUNING.

Indicazioni sul display

- L'indicazione STEREO appare sul display quando viene ricevuta una trasmissione FM stereo con sufficiente forza di segnale.
- Il misuratore SIGNAL indica la forza di segnale della stazione ricevuta.

To change the AM tuning interval (except European and U.K. models)

The AM tuning interval is preset at the factory to 10 kHz or to 9 kHz to match the frequency allocation system of your country. To change the interval, proceed as follows.

- Depress the POWER switch to turn on the system.
- Press the BAND selector to select AM.
- Press the POWER switch to turn off the system.
- While turning the TUNING knob fully toward "+", press the POWER switch to turn on the system stored.

To reset the interval, follow the same procedure.

Note

When the interval is changed, all stored stations will be erased.
After changing the interval, be sure to store the stations again.

Changement de l'intervalle d'accord AM (excepté les modèles pour l'Europe continentale et le Royaume-Uni)

L'intervalle d'accord AM a été pré-réglé en usine sur 10 ou 9 kHz pour coïncider avec l'allocation des fréquences dans la région d'utilisation. Pour modifier l'intervalle, procéder comme suit.

- Appuyer sur le commutateur POWER pour mettre le système sous tension.
- Appuyer sur le sélecteur FM/AM BAND pour sélectionner AM.
- Appuyer de nouveau sur le commutateur POWER pour mettre le système hors tension.
- Tout en tournant le réglage TUNING vers "+", appuyer sur le commutateur POWER pour retourner l'alimentation.

Pour réinitialiser l'intervalle, répéter les mêmes démarches.

Remarque

Lorsque l'intervalle est modifié, toutes les stations mémorisées sont effacées.
Après avoir changé l'intervalle, s'assurer de remémoriser les stations.

Para cambiar el intervalo de sintonía de AM (excepto los modelos para Europa continental y el Reino Unido)

El intervalo de sintonía de AM ha sido ajustado en fábrica a 10 kHz o 9 kHz para ajustarse al sistema de asignación de frecuencias de su país. Para cambiar el intervalo, realice lo siguiente.

- Presione el interruptor POWER a fin de conectar la alimentación del sistema.
- Presione el selector BAND para seleccionar AM.
- Presione el interruptor POWER para desconectar la alimentación del sistema.
- Mientras el mando TUNING esté completamente girado hacia "+", presione el interruptor POWER a fin de conectar la alimentación del sistema.

Para reajustar el intervalo, realice los mismos procedimientos.

Nota

Cuando cambie el intervalo, se borrarán todas las emisoras almacenadas.
Después de cambiar el intervalo, vuelva a almacenar las emisoras.

Per cambiare l'intervallo di sintonia AM (tranne i modelli per l'Europa e il Regno Unito)

L'intervallo di sintonia AM è stato pre-regolato in fabbrica su 10 kHz o 9 kHz in corrispondenza all'allocazione delle frequenze in uso nel vostro paese. Per cambiare l'intervallo procedete come segue.

- Premete POWER per accendere l'apparecchio.
- Premete il selettore BAND per selezionare AM.
- Premete di nuovo POWER per spegnere l'apparecchio.
- Mentre girate completamente la manopola TUNING verso "+", premete POWER per accendere l'apparecchio.

Per riportare l'intervallo alla regolazione originale seguite lo stesso procedimento.

Nota

Quando cambiate l'intervallo, tutte le stazioni memorizzate vengono cancellate dalla memoria.
Assicuratevi di memorizzare di nuovo le stazioni dopo aver cambiato l'intervallo.

ELECTRICAL PARTS LIST

NOTE:

- Due to standardization, replacements in the parts list may be different from the parts specified in the diagrams or the components used on the set.
- Items marked "★" are not stocked since they are seldom required for routine service. Some delay should be anticipated when ordering these items.
- If there are two or more same circuits in a set such as a stereophonic machine, only typical circuit parts may be indicated and capacitors and resistors in other same circuits may be omitted.
- ABBREVIATION
WG: West German model
IT: Italian model
EE1: East European model

CAPACITORS:
MF: μ F, PF: μ F.

RESISTORS
• All resistors are in ohms.
• F: nonflammable

COILS
• MMH: mH, UH: μ H

SEMICONDUCTORS
In each case, U: μ , for example:
UA...: μ A..., UPA...: μ PA...,
UPC...: μ PC, UPD...: μ PD...

- //F : Applicable to the model made in France.

The components identified by mark Δ or dotted line with mark Δ are critical for safety. Replace only with part number specified.

Les composants identifiés par une marque Δ sont critiques pour la sécurité. Ne les remplacer que par une pièce portant le numéro spécifié.
